

ELECTRIC RATES

The following rates and charges are hereby established for the sale of electrical energy by the City to Consumers for private and public purposes within the City beginning with the April 1, 2010 billing:

A. Residential Electric Service

Applicable: To single family residences and individually metered apartments for all domestic purposes when all service is supplied through a single meter.

Character of Service: 60 cycle, AC, single-phase, 120 volt, 2 wire; or 120/240 volt, 3 wire (optional with the system).

Each residential customer shall be charged a customer/meter fee of \$10.00 per month. In addition, the following charges shall be made for electrical energy on a monthly basis:

Summer

First 600 kWh, per kWh	\$0.1394
Over 600 kWh, per kWh	\$0.0973

Winter

First 600 kWh, per kWh	\$0.1260
Over 600 kWh, per kWh	\$0.0817

The above rate is available to one family residence or other equivalent.

The winter rates shall apply to the customer's prorated use from October 1 through May 31 and the summer rates shall apply to the customer's prorated use from June 1 through September 30.

B. General Electric Service

Applicable: To any customer that does not qualify for another rate schedule.

Character of Service: Single phase, or three phase if available, alternating current, electric service will be supplied at the system's standard voltages when All service at one (1) location is measured by one (1) meter.

Each commercial customer including Commercial Lighting and Incidental Powers, commercial Heat and Refrigeration shall be charged a customer/meter fee of \$18.00 per month. In addition, the following charges shall be made for electrical energy on a monthly basis:

Summer

First 2400 kWh, per kWh	\$0.1566
Balance, per kWh	\$0.1163

Winter

First 600 kWh, per kWh	\$0.1533
Next 2400 kWh, per kWh	\$0.1388
Over 3000 kWh, per kWh	\$0.1022

There is an additional charge of \$1.10 per H.P. of incidental load connected.

C. General Electric Service-Demand

Applicable: Those customers that both of the following conditions apply to:

1. Customer with a demand greater than 100 kW in any two consecutive months during the most recent twelve (12) months;
2. Customer's energy usage is greater than 25,000 kWh for three or more consecutive months.

Customer will remain on this rate for the next twelve (12) months.

Character of Service: Single phase, or three phase if available, alternating current, electric service will be supplied at the system's standard voltages when all service at one (1) location is measured by one (1) meter.

Monthly Customer Charge	\$50.00
Demand Charge, per kW	\$13.95
plus	
All kWh, per kWh	\$0.0600

- D. Irrigation Users: Irrigation customers shall be responsible for paying the Costs of time and materials for construction of any service lines to irrigation customer's service site. The cost of time and materials shall be determined by the utility superintendent based upon the normal and customary charges in expenses by the City of Bayard.

Irrigation customers shall pay an annual horsepower charge of \$20.40 per each horsepower, which shall be due prior to the time service is activated for the irrigation season.

The energy charge per kilowatt hour shall be \$0.0700.

The demand charge per kilowatt shall be \$14.53.
