

Dear Local Business and/or Community Member,

Bayard Schools would like to invite you to once again join us by participating in our community coffee outreach. This is an opportunity to partner with other local businesses as well as the school. We are planning to meet on the 2nd Wednesday of the month from 10:00-11:00am through April.

Community Coffee is intended to inspire partnerships between our school, businesses, and local supporters. Our goal is to create a community focused on growth and preparing our students for the future as well as give them opportunities today. This year we are going to include a tour of a local facility or area along with our coffee location. If you have suggestions of places that could be highlighted, please let us know!
